

Bachelor of Business Administration in

Finance

Learn. Grow. Lead. The adult and graduate programs at Benedictine University.

THE BACHELOR OF BUSINESS ADMINISTRATION

(B.B.A.) IN FINANCE is a campus-based "fast-track" program for adults. Students learn the fundamentals of finance through thorough exposure to finance-related principles and how they are applied to the national economy and the business world.

With an Associate of Arts or Associate of Science degree and corresponding prerequisites*, students may earn the B.B.A. in Finance in less than two years, along with an option for work/life and service learning credits. Students who complete the program can earn a graduate degree with just 12-28 months of additional study in the Master of Science in Accountancy or Master of Business Administration programs.

Convenient evening learning teams begin in January, May and August. Students start the program in a group and attend class two nights each week. This allows for group cohesion along with the development of team-building and leadership skills. The fixed schedule allows adult students to plan in advance for personal and professional activities.

Benedictine University offers:

- A superb location in Chicago's western suburbs where you will be near high-tech industries, many with national headquarters nearby.
- The prerequisite knowledge necessary to take professional licensing examinations.
- Close contact with our professional faculty due to a low studentto-faculty ratio.
